- *Do I have to clean the shelter?*
 - Shelters should be left as they are found. A “Shelter User’s Checklist” is provided with your receipt at the time of reservation. Please be sure to bring this with you on the day of your facility rental. The checklist should be completed and left inside the shelter for our park attendant. The checklist not only provides a reminder of areas that should be cleaned but also contains an area for you to provide us with comments.
- *What is the cancellation policy?*
 - Cancellation requests must be received by the Facilities Department at least 14 days prior to the shelter use date to receive a partial (50%) refund of the shelter fee. Cancellation requests less than 14 days of the reservation date will result in no refund. All refunds are made in the form of a check.

- *Can I hold a fundraising events in the parks?*
 - All fundraising events require approval from the Public Works & Infrastructure Committee. If you plan to hold an event with the intention of raising money or charge a fee for admission/programming and it will be open to the public, you must first receive approval from La Crosse County. The process starts with a letter detailing your proposed event. The letter must answer the questions of who, what, where, when, why and how. Include complete contact information for who is making the request and for all involved in organizing the event. Explain what the event is, where, when and why you want to hold the event. Lastly include details on how you plan to run the event including set-up, tear-down, parking, event times, etc. La Crosse County requires an insurance certificate in the amount of \$1,000,000 listing La Crosse County as additional insured for all events of this type. Be sure to indicate that you can meet this requirement in your letter. Don't wait until the last minute. Committee meets one time per month and we highly recommend you seek approval at least 3 months prior to your event.
- *What happens if there is high water at Goose Island Park (Mississippi River)/Veterans Memorial Park (La Crosse River)?*
 - Flood preparedness actions are necessary if the river stage is projected to rise to the flood stage warning level. Facilities Dept. may need to close a shelter as part of our flood preparedness actions (example: road to the shelter is flooded). If available, Facilities Dept. will attempt to relocate your event to another shelter or offer you an alternate date.
